2012.

ABSTRACT

This report explains the designing and development of effected college management System. The key functions of the system are handling oxford college Information easily, reduce time to search information. The first chapter provides a brief introduction to the project, the back ground of the college, the problem definition, the aims and objectives and the scope of the project.

I have used Dreamweaver CS5 to design the interface of the system and MYSQL for database development. Furthermore PHP has been utilized for code generation. I hope the system will fulfil all expectation of the client organization.
