ABSTRACT

Website is a collection of web pages. Web pages are presentation of information which can be presented using a carefully chosen media most appropriate for your content. In order to design these pages to use special tools and techniques such as,

- Macromedia Flash to animate images and texts

- Macromedia Fireworks to create buttons and Pop-up menus.

- Macromedia Dreamweaver to design the web pages.

Websites are mainly categorizes into two main types.

- Commercial website.

- Non-Commercial website.

Due to the requirement of the Online Hotel Reservation for Royal hotel in Vavuniya. I am going to develop an eye-catching, user-friendly, and non-commercial website.
